Dear Hiring Manager,

I am writing to express my keen interest in full-stack developer position at your company. As a skilled and experienced developer with a focus on React frontend and Cloud Backend Development and a passion for creating seamless and efficient solutions, I believe that my background aligns perfectly with the requirements for such roles.

At Interact Health PRO, I directly worked under Business Development Director. I excelled in building robust React boilerplate, resulting in a 20% reduction in project setup time. By configuring AWS services and optimizing frontend performance, I achieved significant improvements in authentication, user experience, and loading times. Moreover, I promoted code reviews and best practices, reducing bugs by 15% and enhancing overall maintainability. My proficiency in Git and version control systems also contributed to a 25% acceleration in development cycles through improved team collaboration.

One of my significant accomplishments was the design and implementation of "Fragments," a cloud-based solution handling text and image fragments. This project demonstrated my ability to manage diverse data fragments efficiently, while ensuring robust authorization, format conversions, and scalability. Leveraging AWS services such as EC2 and DynamoDB, along with Docker, I established seamless Continuous Integration (CI) and Continuous Deployment (CD) workflows that facilitated automatic deployment to Amazon Elastic Container Service (ECS).

My educational background in Computer Programming and Analysis, along with extensive skills in JavaScript, Python, TypeScript, Java, and cloud technologies like AWS and Docker, further reinforce my ability to thrive in this role. I also have an AWS Cloud Practitioner Certification.

I am excited about the prospect of joining your company and contributing to the continued success of your projects with my expertise in web application development and cloud services. I am confident that my skills, enthusiasm, and dedication will make me a valuable asset to your team.

Thank you for considering my application. I look forward to the opportunity to discuss how my experience and skills can support the growth and innovation at your company. Please find my resume attached for your reference.

Sincerely,
Smit Gabani
